

March 24, 2021

The Honorable Nancy Pelosi
Speaker of the House
U.S. House of Representatives
Washington, DC 20515

The Honorable Charles Schumer
Senate Majority Leader
U.S. Senate
Washington, DC 20510

The Honorable Kevin McCarthy
House Minority Leader
U.S. House of Representatives
Washington, DC 20515

The Honorable Mitch McConnell
Senate Minority Leader
U.S. Senate
Washington, DC 20510

Dear House Speaker Pelosi, Senate Majority Leader Schumer, House Minority Leader McCarthy, and Senate Minority Leader McConnell:

On behalf of Habitat for Humanity International and the more than 560 Habitat affiliated organizations from all 50 states, Puerto Rico and Washington, D.C., listed below, we urge you to prioritize housing investments that increase the stock of affordable homes, spark the revitalization of left-behind neighborhoods, and help low-income families and communities of color rebuild and prosper, as part of an infrastructure package.

The pandemic has exacerbated a pre-existing housing affordability crisis being fueled by a shortage of habitable, affordable homes, including a record-low supply of entry-level homes for sale. At the same time, many long-disinvested communities are being weighed down by deteriorating housing stock and abandoned properties that hold back economic recovery. These include formerly redlined communities of color, towns devastated by loss of industry, pockets of distress in otherwise prosperous areas, and rural communities with high rates of poverty and older housing stock.

Habitat applauds the rental and mortgage assistance Congress has provided for families impacted by COVID-19, as well as the recent extension of forbearance, foreclosure and eviction protections for homeowners and renters. However, even with these crucial resources and protections, more action and support are needed to help ensure all families can participate in our nation's economic recovery and achieve long-term stability and security.

To accomplish this goal, we strongly encourage Congress to support and include the following measures in a future infrastructure and recovery package:

1. Neighborhood Home Investment Act (S.98): This bipartisan legislation will revive distressed neighborhoods by using federal income tax credits to mobilize private investment to build and substantially rehabilitate homes for low- and moderate-income homeowners.

2. Restoring Communities Left Behind Act (H.R. 816): This bipartisan legislation would make \$5 billion available to local communities through a competitive grant program administered by the Department of Housing and Urban Development to help local public-private partnerships rehabilitate homes for affordable homeownership, conduct home repairs to stabilize current owners, preserve affordable rental housing, provide weatherization, and improve surrounding neighborhoods. The bill also includes \$250 million for the Self-Help Homeownership Opportunity Program, the only grant at HUD focused on low-income

homeownership. This program supports land acquisition and infrastructure for the creation of decent, affordable homes for low-income homebuyers.

3. Vital housing and community development federal programs that enable Habitat and other organizations to support communities by creating affordable housing opportunities. This includes supporting additional funding for the HOME Investment Partnership Program, the USDA 502 loan program, and Section 4 program beyond the resources they receive in the fiscal year 2022 budget.

Many Habitat affiliates nationwide are working hard in struggling communities to build and rehabilitate homes, and are witnessing firsthand the need for increased resources. Federal investments can begin to unlock economic recovery and help ignite a virtuous cycle of rising home values that removes disincentives to broader neighborhood reinvestment while creating thousands of jobs, remediating urgent health hazards, and narrowing our nation's racial wealth gap.

Habitat urges Congress to prioritize these housing investments to ensure no one and no community is left behind as we rebuild from the pandemic. These are key priorities for Habitat's Cost of Home campaign, which is working to help 10 million individuals over five years access greater housing affordability. We thank you for your consideration of Habitat's priorities as Congress works to address our country's infrastructure and recovery needs.

Sincerely,

Habitat for Humanity International and below signed state and local affiliated organizations
